

Alberta Doctors' Digest

Did you miss the AMA's 2024-25 Annual Report?

As we prepare for a pivotal year in Alberta's health care system, it's worth taking a moment to reflect on what we accomplished together in 2024-25. From bold advocacy to systemwide transformation, the AMA worked tirelessly to protect patient care and support physicians in every corner of the province.

Our 2024-25 Annual Report – *Leading Through Change* tells that story. It highlights progress on priorities like income equity, acute care stabilization and the launch of the Primary Care Physician Compensation Model, alongside new partnerships and innovations that strengthen our profession.

If you want to see what your AMA did on your behalf last year, click below and explore the full report:
