We've moved: AMA's Edmonton office has a new home

As of May 4, 2026, AMA's Edmonton office is operating from a new location in southwest Edmonton:

AMA – Edmonton Office

#200, 5083 Windermere Blvd SW

Edmonton, AB T6W 0J5

Our main phone and fax numbers remain unchanged, and mail sent to our former Edmonton office location will continue to be forwarded for a period of time. AMA's Calgary office location has not changed.

While many AMA staff work in a hybrid environment, Edmonton-based teams use the office for in-person work, meetings, mail and visitors. This move brings those teams together in a modern, functional workspace that supports day-to-day operations and collaboration, while ensuring members and partners across Alberta continue to access AMA support and services as they always have.

To help ease the transition, signage has been posted at the former CMA Alberta House location to redirect visitors and couriers who may still associate AMA with our previous address.

We are also exploring plans for an open house to mark the opening of our new space. More information will be shared once details are finalized.

We look forward to continuing our work on behalf of physicians, medical learners and Alberta's health system from our new Edmonton home.
