

Alberta Doctors' Digest

Pitch us a story

Alberta Doctors' Digest is the authoritative voice of health care in Alberta, focusing on the business, economics and politics of practicing medicine in the province. We are the flagship publication of the Alberta Medical Association ... *your* association.

With this in mind, we're always looking for thoughtful perspectives and stories about initiatives that affect health care. So do you have a story you want to pitch to us? We'd love to hear your idea. Just a one or two paragraph abstract would be fine for now. Once we have an opportunity to determine the fit for *Alberta Doctors' Digest*, we'll get back to you to discuss the details such as story length, photography ... and maybe even how we can make the story jump off the page with audio or video support. Ever want to appear in a podcast? This could be your opportunity.

So go ahead and send your short pitch to amamail@albertadoctors.org

mailto:amamail@albertadoctors.org

. You know you want to!
