

Alberta Doctors' Digest

A year of living digitally

Alberta Doctors' Digest podcast is on the air

Since we launched *Alberta Doctors' Digest* as an all-digital publication in the spring of 2018, you may have noticed we started enhancing our print stories with embedded video and audio, as well as a podcast. This means you can listen to select *ADD* stories in iTunes, the Apple Podcast app, or your other podcast player. It also means you can subscribe to the podcast (for free, of course) so the stories will automatically show up in your podcast app as they become available. This is a great way to keep current on select *Alberta Doctors' Digest* stories because you can listen while driving or doing other things.

Finally, you've got a really good reason to toss those old 8 tracks, cassettes and CDs because you can listen to select *ADD* stories during your commute!

To subscribe in iTunes or your podcast app, click [here](#).

Calling all photographers!

Who doesn't love photography? In the past, our storytelling has been constrained by the printing process, number of available pages, and all that jazz. Not any more. We are now bringing you more great photography to support our storytelling. So if you or someone you know would like to volunteer as a local photographer in support of *ADD*, that's a resource we could definitely use. [Please reach out to us here](#).

Some of you have already stepped forward, so thanks for that!
