Dedicated phone number for AMA members

AMA members have access to a dedicated phone number to contact us for fast and friendly advice. Call 1.844.859.6566 to speak with an advisor who can assist you with your unique insurance needs.

Practical convenience

MyInsurance provides the flexibility to review or make changes to home and auto insurance policies, start a claim, or print a temporary pink card. Register or access MyInsurance from the [TDInsurance.com](https://www.tdinsurance.com) website, or on the go via the TD Insurance Mobile App. Download the MyInsurance app quickly and easily on your preferred platform for your home and auto insurance needs.

When an unexpected claim occurs, the Accident Assistance button in the TD Insurance MyInsurance app connects customers to our First Response Centre in less than a minute, on average. We can then quickly dispatch a tow if it's needed. The app provides access to a helpful checklist of what to do immediately after an accident and the tools to document key details and take photographs.

Accident assistance

Photo-based estimating, now available for eligible claims, allows you to take and submit photos of your damaged vehicle. If your vehicle is still safe to drive, this innovative tool can save you time since you'll only need to go to the body shop once for the repairs. The photos are uploaded in real-time and used to complete the estimate.

Customers can also use the MyInsurance app to view the status of their claim and track the status of their repairs.
